About "Is It Wrong to Try to Pick Up Girls in a Dungeon?"

A boy called "Bell" arrives in the Labyrinth City of Orario wide-eyed with excitement for the unknown. He's come to the "Dungeon" city in search of not just honor, but even more importantly, romance with cute girls.

His story begins after meeting the small goddess "Hestia". It was fate that brought together the hopeful adventurer who was turned down from every Familia and a goddess without a single follower. This is the story of that boy, recorded by his goddess. –Familia Myth-
